the making of you.

Degree Apprenticeship Opportunities

Welcome

Early Careers at Morrisons

Now you don't have to worry about university fees or choosing between starting your career or studying towards a degree. You can enjoy the best of both worlds on our Degree Apprenticeship Programme.

Our apprenticeships offer you the chance to find out what life is like inside a business that's leading the way when it comes to feeding the nation. Not to mention earning cash while you learn and study towards a qualification.

We've partnered with top Universities to create a unique, tailor-made programme that's designed to unlock your potential. You can work, earn and learn while studying towards a degree and preparing for a management career with one of the UK's leading fresh food manufacturers and retailers.

Read on to discover more exciting opportunities...

Retail Management

“The people make the company. Our people are what give us our fantastic reputation for customer service, and I really love being a part of that.”

Emily - Retail Degree Apprentice

Want to learn what it takes to keep a Morrisons store running smoothly? As a Retail Degree Apprentice, you'll learn about our store trading operations and support live business projects. Plus, you'll get an early taste of leadership when you take on responsibility for a team of colleagues within a department.

By the end of the three years you'll be a Manager in one of our stores, with accountability for a range of departments. Show us real potential, and you could even progress onto our Store Manager Development Programme.

If you love thinking on your feet at the heart of the action and want to have great ideas to provide our customers with a great shopping experience, then this could be the perfect opportunity for you.

Food Technical

With 18 manufacturing sites across the UK, staying on top of Food Safety, Food Quality and Legality is a huge challenge. And one we love to meet.

Across our sites, we provide top quality food and the freshest produce, from flowers, fish and veg to burgers and bread. But the big challenge for our Food Technology department is to stay on top of Food Safety, Food Quality and Legality. Join us as a Technical Degree Apprentice and you'll get involved in all aspects of food production and compliance across a huge number of food categories. On this three-year programme you'll learn about food manufacturing, work on exciting live projects, and help us to improve and our food safety and quality standards.

What you'll study towards

Study towards a Bsc (Hons) Professional Practice in Food Technology Management at Sheffield Hallam University

Manufacturing

“My expectations of Morrisons were blown away. I knew them as a supermarket, but not as a manufacturer or for logistics.”

Richard - Manufacturing Degree Apprentice

Join us, as a Manufacturing Degree Apprentice, and you'll get to make an impact from day one, as you work on exciting projects and help us make our manufacturing processes simpler and more efficient. Our Manufacturing Degree Apprenticeship allows you to work towards a degree while preparing for a brilliant management career within our unique food retail business.

Along the way, you'll learn how to run production lines and lead production teams while getting to grips with a wide range of manufacturing equipment, processes and technologies, and gaining exposure to a variety of manufacturing teams. This should help you develop the skills and experience you need to become a Team Manager before too long and progress to a Shift Manager by the end of the programme.

Business Management Graduate Apprenticeship

“I’m able to work, earn and get my degree at the same time without being stuck with student debt.”

Tom - Retail Degree Apprentice

Our teams at those stores love providing over 11 million customers every week with good quality fresh food and a great shopping experience they won't find anywhere else.

What you'll be doing

Thinking quickly on your feet at the heart of the action, on our 3-year programme you'll help to keep the store running smoothly. Learning to run all areas of the store operations alongside your studies. While you're working with us, you'll also be studying towards a BA (Hons) Graduate Apprenticeship in Business Management in Scotland

Logistics

We keep millions of products moving all the way from our suppliers to our stores, as we get our products from farm to fork as quickly as possible.

Our logistics teams are responsible for ensuring the right products are always in the right place at the right time. You'll be working as part of one of these teams, learning how to drive efficiencies and helping to provide our customers with the freshest of products from day one.

There will be opportunities for you to make an impact on exciting business projects while working across various teams, learning about our systems, processes and technologies, and building a deep understanding of how our business works. This should help you gain the skills and experience you need to advance to Team Manager before too long and progress to Shift Manager by the end of the programme.

What you'll study towards

Study towards a BSc (Hons) Management and Business at the University of Bradford.

Finance Apprenticeship

We look after the finances that impact on every part of Morrisons, supporting future plans and decision-making.

If you're passionate about finance and relish new challenges, we offer a variety of opportunities and you'll need a flair for both analysing and presenting data.

You'll support our business teams and develop your skills in different areas of finance. Working with a Financial Accountant or Finance Manager, you'll learn how to prepare balance sheet reconciliations and generate accruals, prepayments, and adjustments. You'll also assist with financial reporting and help to improve our processes and procedures, while earning a starting salary of £19,500.

What you'll study towards

You'll study towards a professional accounting taxation technician apprenticeship (Level 4 CIMA qualification) at Kaplan in Leeds, with the opportunity to move onto our Level 7 apprenticeship after completion.
