

Onen Hag Oll
One and all

Headteacher: Mr Dominic Wilkes BSc (Hons) NPQH

BUDEHAVEN
COMMUNITY SCHOOL

The Design & Technology Department

We are looking to appoint a dynamic, enthusiastic and inspirational Design & Technology teacher to join our experienced team of specialists at Budehaven Community School on a maternity cover basis. The successful candidate will be required to teach across KS3, KS4 and a little KS5. This is across many aspects of the curriculum, including GCSE Design and Technology (AQA) and NOCN Introduction to Construction Skills Certificate. The department also offers the subject at A level, through the AQA Product Design course.

We are a popular and thriving school with a proven track record within the North Cornwall community. Our Design and Technology department is well resourced, with four workshops, ICT facilities, CAD/CAM equipment and a good-sized materials preparation area. The subject is held in high regard across the school and is a popular choice at GCSE. Two excellent technicians support the D&T and Food subject areas.

Are you enthusiastic, ambitious and passionate about Design & Technology and recognise its importance for the development of all pupils? Will you provide excellent results in our already very successful Department? Do you have the determination to rise to a new challenge and become part of our team? Will you be willing to collaborate and contribute to our D&T curriculum as well as the wider whole school picture? If so we would very much like to hear from you.

From the moment you join us you will feel welcomed and supported by our team. In our rural coastal location Design & Technology is a very important part of our curriculum offer and we have excellent facilities to support the departments work in developing the designers, engineers and skills based trades of the future, including imminent substantial investment into sizable CNC machinery to deliver a 21st century experience of what Design and Technology entails.
